All the window-glass factories controlled by the American Window Glass Company that have been operating since the regular shut-down on June 15, having a capacity

of over 1.000 pots, were closed at noon. Fully 18,900 window-glass workers will be idle during July and August, and longer un-less the wage scale is arranged before September I, but there does not seem any doubt now that all differences will be adjusted by

that time.

All the first bottle and chimney glass factories closed to-night, the former for two manths and the latter for six weeks. As a result over 10,000 flint glass workers will have a vacation during the hot months. The flint-glass wage scales have been settled except in the chimney branch, and this will likely be adjusted before the time for the next fire.

There was never a man who came to St. Louis who has created the general sensation as Dr. Abbo. A person who would go to see this man or meet him on the street would hardly take him to be the remarkable man he really is, or think he has done, for the cures he has performed in St. Louis is one of the most remarkable things that has happened here in recent years. From the first day he came to the city up to the present time his offices have been crowded from early morning until late at lisht. There are those that have come to him who were totally blind and to whom a ray of light had not been visible for many years, but now they are able to see clearly, as a result of Abbo's wonderful skill.

I don't know if it was the medicines or his maste touch; however, I left his office with my crutches on my shoulder and have had no use for them since. Yours truly, CHAS, LINCH. A Modern Miracle.
